Office Memorandum • UNITED STATES GOVERNMENT

TO : Assistant Director, OO

FROM : Chief, Foreign Documents Branch

SUBJECT: "Sunshine" Project

DATE: 19 May 1948

1. The conclusions and recommendations of the Deputy Chief, FDB, attached herewith are concurred with.

2. Complete records of the holdings at the Hoover Library are on file in this office. Correspondence at frequent intervals has been had with the CIA personnel now stationed in the Hoover Library thus keeping the information up to date. One member of this organization spent three months in 1947 screening the contents of the Hoover Library in the Chinese language.

3. After full and complete consideration and consulting all the above sources of information it must be concluded that the "Sunshine" Project would be of such slight value as not to warrant the expense to CIA. It is further recommended that no personnel of this branch be sent to the Hoover Library on an inspection trip at this time as no additional information would be gained.
